W. R. "BILL" WILLIAMS, PRESIDENT
NATIONAL SCRIP COLLECTORS ASSOCIATION
P. O. BOX 3015
OAK RIDGE, TENNESSEE 37830

SEASONS GREETINGS from the Executive Committee - Charlie, Crawford, Colley, Walter, Tip, John and Bill.... May the coming year bring you health, happiness and prosperity, and then May all your acquisitions be Rarity Ter

1980 has been an extremely satisfactory year for NSCA. We have added more than 150 new members; have had record attendances at both the Beckley and Richmond conventions; and have seen the auction prices of scrip increase an average of 50%.

My personal thanks to all of you who have helped make this possible by getting new members; by attending the conventions; and by bidding in Walter's auctions. Without your help, this progress would not have been possible. With your continued help, we can continue to grow and make 1981 the best year yet !!

I went to West Virginia in September to make foils from the unlisted pieces in the collections of Bob Craigo, Harold Snodgrass, Harold Lee and Betty Light. I also obtained foils from John Podgurski, Steve Chappo, A. B. Coleman and Dick Coy. Altogether, I obtained about 500 unlisted pieces for Don Edkins to use in the next catalog. Many thanks to each of you for giving us the opportunity to make the foils from your collection.

In October, I went to Dayton, Ohio for the IKO TAMS Token Show. They had an excellent turnout of both dealers and collectors. While there, I talked with Paul Cunningham, Tom Hitt, Charles Kirtley, Joe Ledonne, Gaylor Lipscomb, Jim McGraw, Ben Odesser, Jerry Houghton, Jerry Schaeper, Dick Siepelt, and Lloyd Wagaman. I have a feeling that I talked with other NSCA members but neglected to make a record in my notes. If so, my sincere apologies for not including your name above.

In November, I spent three weeks visiting relatives in Texas. While there, I again had the opportunity to attend the meeting of the Texas Trade Token Collectors at College Station, Texas. Most of them are also members of NSCA, so I had the pleasure of seeing John Byars, Bill Fowler, Bill Kelly, Lindsey Lee, John Ribbe, Leo Warren and Dick Worthington. I made side trips to visit new members Bill Kelly in Lufkin and Cecil Gregory in Bay City, and also to visit with my long time friend, Jim Ruhland, in Vidor, Texas.

On the way down, I had coffee one evening with Glyn Farber in Lake Charles, La. Glyn again confirms for me that the Central Coal & Coke Co. in Neame, Louisiana was a sawmill operation rather than a coal operation. While in Texas, I visited the Stephen F. Austin State University Library, looking for information about the Thompson Brothers, who operated a sawmill where my Dad worked. In this material, I found a notation in the biography of one of the supervisors at the Doucette, Texas mill that he had come there from Neame, Louisiana, where he had been Shipping Foreman at the lumber mill of Central Coal & Coke Co. for more than two years. The reference appeared in "American Lumberman", November 26, 1908.

Due to time considerations, I had to drive straight through going and returning; so, I did not have a chance to see any other members while enroute.

Since returning to Oak Ridge, I saw Jasper Payne and Ed Norman at the Knoxville Coin Show. I also bumped into C. W. Hall from Welch, W.Va., who was visiting relatives in our area.

(Continued on following page)

THE PRESIDENT'S CORNER (Continued)

As promised in the last issue of SCRIP TALK, I have completed a study of the prices realized from Walter's auctions from May, 1979 to November, 1980.

The following principles were used in the study:

1. All multiple item lots were excluded from the study.
2. All unlisted tokens were excluded also.
3. Items for which the bid obviously was too high or too low for the Rarity value in Edkins' Catalog were excluded.
4. Auctions No. 57 and 58 were combined into one entry, because the total number of items in each auction were too low.
5. Weighted averages were computed from the totals of all auctions during the preceding twelve months.
6. Weighted averages were obtained by accumulating the total dollars realized for all lots in a rarity value and dividing by the total number of lots.

Following are the results:

AUCTION NOS.	R A R I T Y V A L U E S									
	1	2	3	4	5	6	7	8	9	10
55-63	1.41	2.05	2.25	3.10	3.92	5.09	8.30	11.31	16.63	26.18
56-64	1.47	1.99	2.48	3.42	4.28	6.38	8.98	12.32	19.77	26.35
57-65	1.52	2.01	2.60	3.83	5.05	7.16	11.05	14.68	22.38	32.64
59-66	1.80	2.02	2.73	4.01	5.31	7.89	11.85	14.77	22.32	34.12
60-67	1.80	2.06	2.80	4.11	5.84	8.40	12.57	15.41	22.10	34.45

.....

The above data has not been given any official status by either the NSCA Executive Committee or the Catalog Committee. It, however is presented to demonstrate what actually happened to auction prices in SCRIP TALK auctions from May 1979 to November 1980. Furthermore, these and future results will be taken into consideration by the Catalog Committee in establishing price values when the new catalog is prepared.

=====

"TID-BITS" FROM THE EDITOR'S DESK.... The membership of NSCA owes President Bill a vote of thanks for his fine work for the organization!! His contacts with the various members in his travels certainly should help to make our group the 'best' since it is not possible for all members to attend the semi-annual National Conventions and see in person what a fine bunch of members that we have!!.... Scriptor C. R. Clark of Florida sends along a copy of "Tokenews", the publication of the Florida Token Society. He notes that all NSCA members who plan to visit in Florida during the winter are invited to the meeting of the group on Saturday, Jan. 10, 1981. The location will be: Sheraton-Twin Towers, 5780 Major Blvd., Orlando, Florida.... New Scriptor Barbara Mays visited our meeting room in Richmond, Ky. after everyone had left. She had seen the meeting notice on the sign in front of the Holiday Inn and was surprised to find such a group. Anyway, she found a brochure in the meeting room with your Secretary's name on it and after a phone call and a letter became a new member! She was born in Dunham and worked for Consol at Jenkins.... Scriptor Pat Hogan sends along the Number 36 - 1980 issue of "Trail Tales" the publication of the Boone County (Iowa) Historical Society. It is a 'goodie' with old pictures and history of coal mining in Boone and Story counties... You might contact him about getting a copy of this one for your files and information! (614 S. Johnson, Iowa City, Iowa 52240). ... Scriptor Al Zaika notes that M. DeReus tokens from Leighton, Iowa are not in the coal area and could be for a produce business... Know anything about these, Pat Hogan, that you can share with our readers.... More later as time and space permits!!

QUESTIONS AND ANSWERS

Send all mail for this feature to: TOM HITT, BOX 970, DEFIANCE, OHIO 43512

QUESTION: What do the terms "permissible explosives", "monobel" and "cardox" mean? (PA MX4; MX17; VA MX1; MAV 19a, etc.)

ANSWER: The best answer can be taken from three paragraphs of Stuart Brown's book titled "SCRIP" - pages 68 and 69. This book can be bought from Scriptor Brown for approx. \$20.00.

"A permissible explosive is one that is the same as, or in all respects similar to an explosive tested by the Bureau of Mines, and found to be proper for use in coal mines"... "One Cardox consisted of a steel tube, with a cartridge in its center. The cartridge contained sodium chlorate, aluminum carbon dioxide and when an electric charge shot through the cartridge, it would trigger the generation of great heat, the volatilization of carbon dioxide, a terrific gas explosion - a terrific pressure, and an almost immediate explosion. Cardox was especially suitable for use in mines where there was a great danger of 'fire damp' explosions. It was also used in mines where lump coal was the primary product. And it was widely used in Illinois where dynamiting in mines was outlawed." "Monobel was a DuPont trade name for an ammonia dynamite usually used in blasting coal."

QUESTION: Steve Ratliff wants to know if the rarity on VA 1193A5 (R8); A50 (R7); A100 (R6) are correct as he has only found a few listed in past auctions of 3 to 5 years.

COMMENT: A true rated R6 or above token will occasionally be found in auctions, but are usually found only in collections or trading stock. An R6 rating means 50 to 74 pieces known. Undoubtedly with close to 350 serious collectors, one can readily see why few should be in an auction. This correlates with the rating. On the other hand, a rating of R7 for WV 469A500 - B500 - C500, one should not expect to see every other collector at a show, have them available at \$4 to \$6. I suspect the rarity in this case to be too high!

QUESTION: What are the criteria for submitting an article for "SCRIP TALK" and be eligible for the Ancil Donohoe?

COMMENT: Chairwoman Betty Light (Morgantown, WV) states that three requirements must be met: (1) must be an NSCA member (2) articles should be about scrip, or a company that issued scrip, or scrip related (3) article should be original - no reprints.

QUESTION: At the last show, Kerry Schaeper was asking about a "STICKING TOMMY". Is this term coal related?

QUESTION: Several collectors have asked of a certain maverick: R.E.D./C.C. if it could be the "Richard E. Dean Coal Company." The answer is NO! It actually is the "Richard E. Dean Canning Co." (Federalsburg, Md.) circa 1890-1920 according to an article by Mr. Fuld in Tams Journal sometime ago.

NEW FINDS: Kenilworth/Merc. Co.////Good For/10¢/ In Trade.... (R. F. Singer)
Standard/Coal/Standardville/ Utah/Company///Good For/Electric Exploder (D.L. Freed)
Quality/Lignite/Co./Minot, N.D.///Good For/\$5.00/In Trade (Bill Craig)

QUESTION: R. F. Singer wants to know if anyone can attribute the following token? W.J.James/Lumber/Franklin/// Good For/1¢/In Merchandise (alum,rd, sd, 18mm)

COMMENT: W. J. James is not WV and not NC according to Jerry Roughton. I suspect that the proper location would be Virginia, as Franklin, Va is strong in lumber tokens. Dave Schenkman, among others, would be the contact to make.

I'm working on another Ingle maverick list similar to the last. Anyone who has attributions to the old list or additions for the new list, please send to me within the next few weeks !!

SOME NOTES ON VIRGINIA SCRIP by Stuart E. Brown, Jr.

After reading Dave Schenkman's excellent new book, VIRGINIA TOKENS, I made the following notes which I felt might be of interest. The numbers correspond with those used in VIRGINIA TOKENS. Varieties noted resulted from the use of different reverse dies, and there may well be other varieties, i.e., additional different reverse dies may well have been used.

- BANNER - There is a B10 (brass).
- BARTLICK - There is an A10 (brass), an A100 (brass), a B10 (brass), an A100 (nickel), and a B100 (nickel plated).
- BIG ROCK - There are three varieties of B5, four varieties of B10, and two varieties of B25b.
- BISHOP - There are two varieties of A5; and there is a B100 (brass).
- BOISSEVAIN - An A1 is reported.
- BONDURANTVILLE - An A10, and an A25 are reported.
- BONNY BLUE - An A5, an A500, and a solid I500 are reported. Also reported are 5(¢), 10(¢), 50(¢), and (\$1.00) pieces issued by Bonny Blue Coal Company, Bonny Blue, Va.
- CAMBRIA - There are 5(¢), 10(¢), 25(¢), 50(¢), and (\$1.00) Northside Coal Co., Inc., pieces, all in brass, solid, and I.S.C. scrip, type II. The specimens that I have seen are genuine (I have not seen specimens of the counterfeits referred to in VIRGINIA TOKENS).
- CRANES NEST - There is a C25 (brass), and a D100 (brass).
- DANTE - There is a C10a (nickel).
- DORCHESTER - There is an F10 (brass).
- DRILL - There are two varieties of A5, two varieties of A10, two varieties of A25, two varieties of A100, and two varieties of B100. I believe that there are also at least two varieties of A50, B5, B10, B25, and B50.
- FORT BLACKMORE - There is an A5 (brass).
- GLAMORGAN - There is an I5 (brass).
- HARMAN - There are two varieties of A5.
- HONAKER - A Bee-Hive Mining Co. 25(¢) piece bearing a picture of a bee hive is reported; there is a B50 that is not counterstamped; and an F25, and an F50 are reported.
- JEWELL RIDGE - There are two varieties of E1b.
- LOWMOOR - There are two varieties of A1.
- PARROTT - There are three varieties of C10.
- PENNINGTON GAP - All of the L5, L10, L25, L50, and L100 pieces that I have seen are counterstamped "7".
- POCAHONTAS - There is an M50 (brass); and there are two varieties of M1, two varieties of O1, three varieties of P5, two varieties of P10, and two varieties of O1a.
- RED ASH - There is an A5a (nickel), a B1a (brass), a B5 (brass); there are two varieties of B10, two varieties of B25, and two varieties of B50a; and there is a B50a (white metal), and an F5 (brass).
- SAINT CHARLES - There is an A5c (nickel), an A50b (nickel plated), and an A50a (nickel); there are two varieties of B10a, and two varieties of B10b; there is a B50a (brass), and a C1 (brass); and there are two varieties of H10, two varieties

of S10, and two varieties of S25. There is a T10a (brass) but with a NARROW hexagonal c/o, and three similar c/o pieces are reported (T1a, T5a, and T25a).
SPLASH DAM - There is a B50a (brass); and there are two varieties of C5, and three varieties of C10b.
TACOMA - A piece similar to A1, but with a Maltese cross c/o is reported.
TOMS CREEK - There is an F10.
WAKENVA - There is an A50 (nickel).

NOTE: Copies of VIRGINIA TOKENS are available from Virginia Book Company, P. O. Box 431, Berryville, Virginia 22611, for \$25.00 plus \$1.00 mailing charge (Virginia residents also add \$1.00 Sales Tax).

.....
"TID-BITS" from the Editor's Desk !!

A false assumption was made in the last issue of the bulletin by several members!! I noted in the Mail Auction Sale that I had purchased some New River Company sets from Scriptor A. B. Coleman and several assumed that I had purchased his collection!! No.. only a few sets to include in the Mail Sale to help with the tremendous cost of the bulletin !!.... Incidentally, there is pending a possible increase in postage rates from 15¢ to 18¢ or 20¢... This will throw another "shock" at the Editor if it comes about on March 1st...The Executive Board will have another item for the agenda it appears!!....A recent issue of one of the numismatic papers indicated that campaign pins are picking up steam with many collectors! The tip was given that "Jay Rockefeller" campaign buttons would be good to latch onto since he has Presidential ideas it seems! Buttons from his three previous races for Governor of West Virginia would go way up in price according to the article.... Another hot item in West Virginia is coal related "decals". Many, many miners wear them on their "hard hats" and have started to collect them.... In fact, many of our Scriptors are 'wild' about them and will offer good coal tokens in exchange!! Decals from coal companies, coal mining equipment manufacturers, etc. appear to be plentiful in the coal fields.... Better watch the FREE ads for more details....Would we be out in left field if this collector group was brought in NSCA?As noted on the Membership Page in this issue, Edkins' Catalogs are going FAST... The First Edition will shortly be a collector's item with increased value... Better latch onto one before they are all gone !! I want to make public apology to those collectors who have failed to receive a reply from me on their correspondence... As most of you are aware, I have to work full time at my insurance agency and must take a few minutes out daily or come back at night to keep up with publication of the bulletin. Too, I have worked for over 30 years with The American Legion and am now helping to get a new Adjutant started on this job. This will help some, I hope!! So, if I owe you a letter or have failed to do something that I should have done, please let me know!! (I even lost Cindy Grellman's paid ad and finally found a second copy which is included in this issue of the bulletin. Sorry, Cindy!)....I am out of special articles for the bulletin so get some material in to me!! The special features and stories can be only as good as YOU make them... why not send in some material for publication?? You might even be the winner of the ANCIL DONOHOE award for the best article published....Note: Be sure and complete the "MINI-SURVEY" form to be found in this issue and return with your bid sheet... This will give some ideas to your officers relating to the progress of NSCA and will also help the Editor to make some future plans for the bulletin, etc. Will take only a few minutes of your time and a stamp... More later as time and space permits !!!

ALABAMA AUCTION

listed below is my 143-piece collection of Alabama coal scrip, which is up for auction. My husband and I have enjoyed our 4 1/2 years in Alabama, but the Air Force is moving us to California in June. Because of this, I've decided it best to dispose of my collection of Alabama coal scrip. I truly enjoyed building this set, and hope each token finds a new home where it can be fully appreciated.

Bidding Rules:

1. Auction closes January 31, 1981.
2. Tokens are in average circulated condition unless otherwise noted.
3. You may bid on the entire collection as a single lot. Your bid would have to top the total individual bids to win them all.
4. All successful bidders will be invoiced after the sale closes. Personal checks will be deposited and given 10 days to clear before lots are shipped.
5. I reserve the right to withdraw lots at any time.
6. Postage and insurance will be added to the invoice.
7. Prices realized provided after the sale free for SASE.

YOU MAY RECALL THAT "SCRIP TALK" RECENTLY RAN AN ARTICLE BY CINDY GRELLMAN ON CLEANING SCRIP TOKENS...SCRIPTOR AL ZAIKA HAS FORWARDED THE FOLLOWING ARTICLE IN RESPONSE...

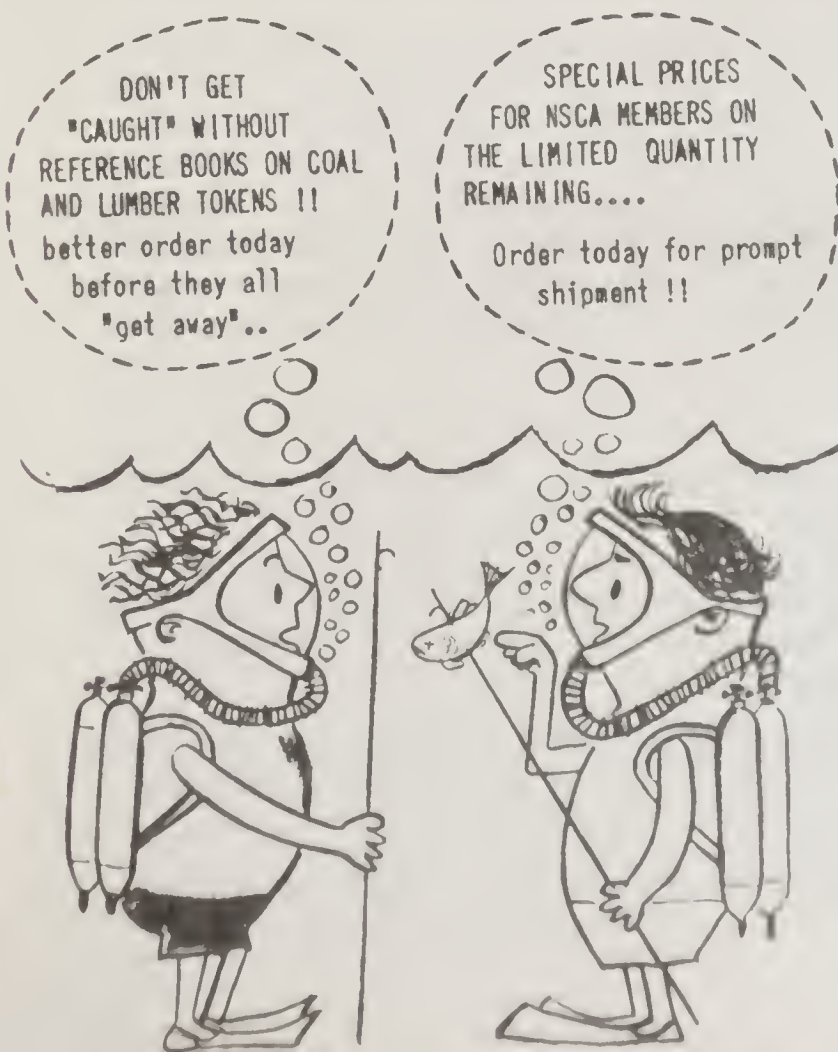

CLEAN YOUR SCRIP ?? YES, BY ALL MEANS !! BY: AL ZAIKA - NSCA #87

The recent article regarding the cleaning of scrip, by Cindy Grellman, contains a few passages that are subject to debate. The vast majority of token collectors were avid coin collectors at one time or another and are quite familiar with the principles of condition, price and desirability of coins and can impart more knowledge to the ex-coin collector than he can bring to our hobby.

My advice to the newcomer is, forget those principals regarding coins and keep an open mind about tokens. This is a whole, new "ball game" and out of the rarefied atmosphere of "MINT STATE 65".

Cindy's analogy of coins to tokens is also debatable, since there are many differences between the two. Tokens are subject to much harder use and abuse - many being holed, gouged, unearthed, salvaged from fire, rivers, cement, etc. They are also made of less common fabrics such as aluminum, brass, steel, white metal, bi-metal, zinc, plated, celluloid, fibre and vulcanite. Consequently, not many tokens are found in pristine condition, minus scratches, or with a uniform toning. The average token is usually dirty, corroded, spotted, or pitted, so its appearance can be improved with careful cleaning. For a plain, dirty token, a soaking in a mild soap solution (such as Ivory) and then a brushing with a tooth brush usually does the job. For more advanced cleaning methods, an excellent reference is: "Cleaning of Coins and Medals" by G. Welter.

SALE 68 COMMENTS: It was certainly "bargain" time for collectors in this sale !! Fewer bids were received by far!! Either the 1¢ items did not entice or else the economy hit hard !! Anyhow, the few bidders received some choice items at very reasonable prices !! You will seldom find tokens of the quality of those in the "Jensen Jewels" collection !! Too, many collectors missed getting tokens in this sale by 5¢... many lots went 5¢ over the second highest bid !! Too, many of you missed Lots 179 thru 187 listed on the front page of the sale!! The scarce Indian Territory stock certificate was overlooked by many.... It will certainly pay to read each lot listing carefully!!
.....

SALE NO. 69 COMMENTS: The great sale closing on January 16, 1981 is one of our best in recent months !! We urge that you check out these outstanding lots: No. 9 - a bi-metal of West Kentucky Coal in top condition!! No. 12 - a great Indian Territory token from Savanna!! No. 26 - A set from Lee Coal Co. currently unlisted in Edkins!! No. 59 - a new find from Mattingly Crossing, West Va. - will be in next Edkins!! Lots 28 and 29 - TWO saloon tokens seldom offered in our sales !!
.....

Remember: If you purchase over \$100.00 in this sale and want to make two payments, please note this on your bid sheet !! We don't want YOU to miss out on this one !!
.....

REMINDER: Have YOU paid your 1981 dues?? With postage costs so high, we cannot continue to send bulletins to members not paid !! Better check this now and get \$5.00 in the mail with your bid sheet!!

PRICES REALIZED

MAIL AUCTION SALE NUMBER 69
CLOSING DATE: January 16, 1981

Many charge \$1.00 or more for Prices Realized.. This is a FREE bonus for all NSCA members !! Many record the prices on their auction sheets in the bulletin so that they will have a current trend on token prices !!

NOTES ON SALE NO. 69 - Lots Nos. 109 and 125 were withdrawn from sale. Reliable info indicates that these were "fantasy" tokens struck by a collector. As noted previously, we do not knowingly list "fantasy" or "counterfeits" unless it is plainly noted on the lot involved... Several bidders failed to note the "MB" on some lots and we had to reject the few bids involved that did not meet the stated "Minimum Bid"...

A few collectors continue to bid in 1¢ increments!! As noted previously, please bid in increments of 5¢ or higher!! Too, some bidders failed to list the Lot Numbers but used the Edkins' catalog numbers !! Please bid by Lot numbers in all sales !! Your janitor has only limited time and these suggestions make for a better operation!! Thanks !!

As was mentioned in another section of this bulletin, I believe that you will be surprised when you learn the selling price of one or two collections that changed hands recently !! Yet, in looking over the prices in this sale, you should be aware also that many, many tokens are still available at the minimum price of \$1. Some have noted that tokens are getting too high but it is possible even today to build a nice collection at a minimum price !! I can't help but think of the Brasher doubloon which sold for a cool \$650,000 last week !! In these times, how do you determine what is too high ?? Good collecting !!
